

TERM 3 NETWORK MEETING

the ERICT NETWORK

SHARE TIME AUGUST 29 2013

Teachmeet Melbourne

We are following the format established for the Teachmeet Movement that is taking off in Australia and other places worldwide. TeachMeets are informal, collaborative experiences organised by educators, for educators in order to share ideas and experiences and support each other in our professional growth. They include people from Catholic, State and Independent schools and from all levels - primary, secondary and tertiary. ANYONE can host a teachmeet: all teachers are potential hosts and participants.

✧ Volunteers Required ✧

The morning session of our next meeting will be following the 'TeachMeet' model, where people offer to present for a short sharing session (2 mins or 7 mins)

ALL THINGS GREAT AND SMALL

Here is **your** opportunity ! We know that every school has wonderful stories to tell - ideas they have tried, cool tools they are experimenting with or failures they want to warn about.

This session is an opportunity to share, in tightly controlled time slots - choose to share for 2 mins or 7 mins and expect to be stopped when your time is up ! No long winded explanations, just a simple

precis of your experience, lessons learned and ideas. If people want to know more they will catch you at another

time. Two people from one school can share a presentation.

No idea is too simple' just come along ready to tell your story. Ideas?

Edmodo, Popplet, Student voice, Parent involvement, iPad deployment/management etc.

How to volunteer

GO to the **ERICT Wiki**
